No. 35, s. 1975

TEACHING GUIDES FOR THE REVISED SECONDARY EDUCATION CURRICULUM

To The Director of Public Schools,  
The Director of Private Schools,  
The Director of Vocational Education,  
The Coordinator of State Colleges & Universities, and  
The Regional Directors:

To insure the effective implementation of the New Secondary Education Program, 1973, prototype teaching guides in the different subjects of the revised secondary education curriculum have been prepared under the sponsorship of the Educational Development Projects Interagency Task Force (EDPTIF).

In this connection, it is desired that these prototype guides be adopted as the basis for the preparation of additional teaching units, lesson plans, and other curricular materials in the different regions which shall be suited to local needs and conditions.

In view of this, it is desired that every high school have at least one complete set of these prototype teaching guides.

Since Guidance is vital in the Revised Secondary Education Program, 1973, it is likewise desired that the Guidance kits which are also available be part of the set of instructional materials in each high school for the effective implementation of the revised curriculum.

(SGD.) JAY L. MARQUEL
