DEPARTMENT MEMORANDUM  
No. 107, s. 1975

AVAILABILITY OF THE FAPE EDUCATION DATA BANK  
IPP DATA SET FOR ALL HIGH SCHOOLS

To the: Director of Secondary Education  
Regional Directors  
Coordinator, State Colleges and  
Universities

1. The FAPE Education Data Bank has made available at minimal costs its Institutional Performance Profile (IPP) to all public and private high schools for their planning operations and evaluation programs aimed at improving their students' academic performance. The cost will cover computer processing, materials and handling expenses.

2. The IPP is an individual comprehensive study on the performance of each high school in the 1973 NCCE. Based on the test scores and student personal data, FAPE has computer-analyzed and documented significant statistical findings on student performance by institution. Aside from being a source of information on the college-bound students of a high school, the IPP is also a valuable instrument of self-evaluation.

3. The IPP data set of all high schools may be obtained from FAPE Education Data Bank, Concorde Condominium, Cor. Salcedo and Benavides Streets, Legazpi Village, Marikina, Rizal. Costs are structural, depending on the school's number of examinees as per schedule below:

<u>Number of Examinees</u>		<u>Cost Per School</u>
less than	25	P 100
25	- 49	250
50	- 99	300

<u>Number of Examinees</u>	<u>Cost For School</u>
100 - 249	700
250 - 499	800
500 or more	1,000

4. Considering the importance of the utilization of the NCER IFF for institutional planning, evaluation, innovation programs and further research purposes, all high schools are authorized to use available local funds for the purchase of their IFF data not from the NARS Education Data Bank.

5. It is desired that this Department Memorandum be disseminated to all necessary school administrators/principals.

(S.S.) JUAN L. MARUL  
Secretary of Education and Culture
