DEPARTMENT MEMORANDUM  
No. 156 s. 1975

A GUIDE FOR THE REVISED EDITION OF ELEMENTARY SCIENCE 5

To the:

Regional Directors  
Coordinator, State Colleges and Universities

1. The revised and final edition of Elementary Science 5, a curriculum guide for teachers has just been completed. This volume supersedes the experimental guides currently used in the school.
2. In view of the major revisions made and to provide the teachers with adequate acquaintance with the material for effective science teaching, it is desired that the in-service training programs on the intermediate level provide the use of the guide. Likewise, teachers should be encouraged to give their comments and suggestions on any of the parts given in the guide. These comments and suggestions should be incorporated in your annual report submitted to this Office.
3. Each division in your region is allotted 10 copies each. Since only sample copies are available, it is requested that the guide be reproduced in as many copies as are needed to provide each teacher a copy and be sold to them at cost.
4. An authorized representative of the region, who may be in Manila for other purposes, may pick up the materials from the Curriculum Development Division, Bureau of Elementary Education of this Office.

(SGP.) MARGISO ATARAYALAN

Acting Secretary of Education and Culture
