DEPARTMENT MEMORANDUM
No. 37, s. 1976

SUMMER CLASSES AT THE PHILIPPINE NORMAL COLLEGE

To the: Bureau Directors
Regional Directors
Coordinator, State Universities
and Colleges
Schools Superintendents

1. The Philippine Normal College will hold a four-week summer session (instead of the usual six weeks) beginning April 19 and ending May 15, 1976. Students presently enrolled and those residing in Greater Manila and nearby provinces may pre-register on March 15 to 21. Regular registration will be April 12-14 and 17. Regular classes will start promptly on Monday, April 19, 1976. Because of the shortened period, no one will be admitted for enrollment after classes have started. Students, therefore, are expected to be present during the first day of classes.
2. The shortened period aims to support the national effort in the conservation of energy. At the same time, students from out of town will save about two weeks maintenance costs in the city. The opening of classes four weeks after the end of the school year will also allow teachers and administrators in the field more time to complete their end-of-the-school-year reports and to have some rest before the summer session starts.
3. Attached is a list of undergraduate and graduate programs offered at the Philippine Normal College.
4. Further information regarding admission requirements and course offerings may be obtained from the College Registrar, Philippine Normal College, Taft Avenue, Manila.

(Sgd.) JUAN L. MANUEL
Secretary of Education and Culture
