MECS MEMORANDUM
No. 49, s. 1983

SUMMER '83 ACTIVITIES OF SCHOOL HEALTH PERSONNEL

To: Bureau Directors
Regional Directors
Schools Superintendents

1. At the close of school year 1982-83, the summer activities of school health personnel (physicians, dentists and nurses) are to be geared to the primary health care services supplemented intensively with health education at the barangay level in all school divisions.
2. School health personnel are required to make the necessary arrangements with barangay chairmen in their respective stations and prepare their barangay schedules subject to the approval of the schools superintendent.
3. Barangays are to be encouraged to generate ways and means to provide medical and dental supplies and medicines for use of school health personnel. This is the primary health care concept of self reliance and community participation.
4. School health personnel interested in upgrading their professional competencies may apply for a study leave to enroll in duly accredited schools or those interested to undergo further training in hospitals may be allowed to do so on official time only. In both cases, a report of ratings and/or completion should be submitted to the office of the schools superintendent, a copy of which is to be forwarded to the School Health and Nutrition Center, MECS, Manila.
5. Due to the fiscal restraint policy of the government, however, no travel allowances shall be allotted for these summer activities.
6. Immediate dissemination of this Memorandum is desired.

(SGD.) ONOFRE D. CORPUZ
Minister
