MECS MEMORANDUM  
No. 212, s. 1963

A STUDY OF TEACHER COMPETENCY

To: Regional Directors  
School Superintendents  
Presidents, State Colleges and Universities  
Heads of Private Schools, Colleges and Universities

1. The Program for Decentralized Educational Development (PRODED), of the Ministry of Education, Culture and Sports is directed towards resolving the problems of disparities in opportunity, low quality and inefficiency in the elementary education sector. The main objective of the program is to improve pupil participation and achievement.
2. A major factor that affects a pupil's scholastic performance is the quality of his teachers. So that one of the most immediate concerns of the PRODED is upgrading the teaching competence and efficiency of our elementary school teachers.
3. There are at least three components of the PRODED which have direct bearing upon raising the existing level of teacher competency and efficiency namely: (1) the New Elementary School Curriculum, or NESC, which lays a good portion of the accountability for raising the learning achievements of pupils on the shoulders of teachers; (2) the Educational Reorientation Program, or ERP, for being the mechanism by which teachers are to be prepared for the tasks called for by the new curriculum; and (3) the Instructional Materials Development Project for opportunities for self-advancement it can extend to teachers, in the way of teacher guides and other professional materials.
4. All three components need baseline and objective data on teachers a) if they are to effectively bridge the gap between the skills demanded of teachers by the new curriculum and those which our teachers lack and b) if we who manage and implement PRODED are to be apprised, on comparable terms, of the impact of our efforts to uplift the condition of teachers. The data required are those which will enable diagnosing the strengths and weaknesses of elementary school teachers in the area of subject matter, teaching methods and evaluation techniques.

5. For this purpose, diagnostic instruments will be administered nationwide to about 5,000 sample teachers from November to December 1985. Division, district, and school officials concerned and especially the sample teachers are requested to extend the necessary cooperation and assistance to the visiting teams.

6. The listings of sample schools (from where sample teachers will be drawn) and the tentative dates and places of assembly are inclosed.

7. Immediate dissemination of this Memorandum to all concerned is desired.

(SGD.) JOSEPH D. CORDELL  
Minister

Incls: As stated

Reference: None

Attachment: 1-2--(D.C. 1-76)
