Heads, Public Technical-vocational High schools**

1. The Strengthened Technical Vocational Education Program (STVEP) which was implemented this SY 2007-2008 using a Competency-Based Curriculum (CBC) was developed by teacher-writers from the selected existing public tech-voc high schools nationwide. The activity was guided by curriculum specialists from Technical Educational Skills Development Authority (TESDA).
2. The new CBC covering 18 areas of specialization was piloted on the first semester of SY 2007-2008 in the 140 priority tech-voc high schools. The Tech-Voc Education Task Force (TVETF) intends to finalize the CBC before the closing of the current school year in preparation for the forthcoming SY 2008-2009. Out of the 18 areas of specialization, 11 are for arts and trade schools, 4 for agricultural schools and 3 for fishery schools.
3. The TVETF aims to provide the tech-voc schools a finalized Competency-Based Curriculum which will aid the teachers in the effective implementation of the tech-voc program, finalize the CBC based on the validation reports gathered from the implementers, and come up with master copies of the CBC for reproduction and distribution.
4. In view of the foregoing objectives, a writeshop relative to the finalization of the technical-vocational competency-based curriculum and instructional delivery shall be held at the Development Academy of the Philippines (DAP), Tagaytay City on February 4-8, 2008.
5. Participants in this five-day writeshop were chosen from among the selected teacher-writers who drafted the CBC and selected tech-voc school administrators/principals/heads now implementing the STVEP.

6. Board and lodging expenses, honoraria and transportation expenses of the participants, extra duty allowances of the secretariat, honoraria of resource persons and consultants, and other incidental expenses shall be charged against Tech-Voc funds subject to the usual accounting and auditing rules and regulations.

7. Immediate dissemination of this Memorandum is desired.
