DEPARTMENT ORDER  
No. 2, s. 1973

INTEGRATION IN THE SCHOOL CURRICULA OF THE  
ECONOMIC NATIONALISM OBJECTIVES

To Bureau Directors and Heads of Offices:

1. Economic nationalism, which is the primary objective of the National Economic Protectionism Association, is gaining significance with the increasing vigor and effort of the Filipinos for control of their economy. The NEPA objectives, which reflect the fundamental economic policies of the government, cannot, however, be achieved as rapidly and effectively as possible unless the precepts of economic nationalism are properly understood by our youth through the integration of such precepts into the school curricula at all levels.
2. To carry out effectively the purpose of this Order, it is desired that each bureau create a Committee composed of selected school administrators and curriculum specialists to draw up a workable and functional program of integrating the precepts of economic nationalism in all school subjects.
3. This program should be disseminated to all schools for proper implementation.

(sgd.) JUAN L. MANUEL  
Acting Secretary of Education
