The staff exerted effort to verify the information given in this volume, if some errors or name have been inadvertently omitted, such omission, if brought to the attention of the staff, is highly appreciated and shall be corrected in the next edition of this directory.

This work was done between the interval of the current national bibliographic activities and a cooperative undertaking of the Bibliographic Services Division staff, namely: Carmelo Agapito D. Baranda, Romnick Henric Henry M. Gayanilo, Ma. Loreta M. Go, Joel P. Lascano and Gabrielle Josephine M. Napao.

## INTRODUCTION

### WHAT IS ISBN?

ISBN stands for International Standard Book Number. It is an internationally recognized system whereby code numbers are assigned to books for easy identification and speedy exchange of information about them among all segments of the book industry and allied sectors. Specifically, it is a unique and unchangeable code number assigned to one title, one binding or edition of a work published by one publisher.

### ISBN IN THE PHILIPPINES

The National Library of the Philippines was designated as the Philippine ISBN Agency by the Book Development Association of the Philippines (BDAP), Philippine Educational Publishers Association (PEPA) and the Philippine Library Association (PLA) in July 1978. In 1981, the national agency became operational. It is responsible for the implementation and administration of the ISBN system on behalf of all publishers in the country. The ISBN is not obligatory, nor does it convey any legal or copyright protection.

### SCOPE OF ISBN

The ISBN applies mainly to books for which the system was originally created. However, it may also be used in:

1. Pamphlets of research value
2. Microform
3. Educational kits or mixed-media publications
4. Braille publications
5. Mix media (combined use of text, graphics and sound)
6. Comics (literary works/research value)
7. Maps
8. Coloring books with text, and
9. Games (comprehensive manual)
10. Electronic publications with text such as machine-readable tapes, diskettes, CD-ROMs, internet publications.

Not included are the following:

1. Ephemeral printed materials such as diaries, calendars, promotional advertisements, catalogues, price lists, loose-leaf publications, exhibition programmes, etc.

2. Art prints and art folders without title page and text
3. Sound recordings, sheet music,
4. Website
5. Serials

A separate ISBN must be assigned to every title or edition of a title by each publisher but NOT to an unchanged impression or reprint of the same title. Revised edition and changes in formats such as in binding, paper, language requires a new ISBN but change in price does not require.

#### **HOW IS THE ISBN 13-DIGIT BUILT-UP**

The ISBN always consists of 13 digits divided into five parts of variable length. The elements must be separated clearly by hyphens or spaces when displayed in human readable form.

ISBN 978-971-93531-0-2

978	is the EAN prefix. EAN stands for "International Article Number" and is the 13-digit standard for product identification in global trade.
971	is the group identifier which specifies the country language, geographic or other area in which the book is published. In this case, the Philippines.
93531	is the publisher prefix which identifies the publisher of the book. This particular publisher prefix appears on all the publications of Antonio R. Tupaz.
0	is the title identifier or number which identifies the particular title, binding, or one edition of a book. In this example, 0 identifies the book entitled "Davide" by Antonio R. Tupaz
.	
2	is the check digit which allows a mathematical check of the accuracy of the ISBN
